

ABOUT THIS SERVICE

PERMIT DRAWINGS

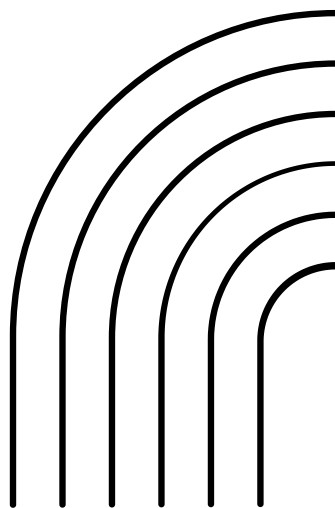

So your municipality is requesting construction documents before granting you a building permit? We can help with that!

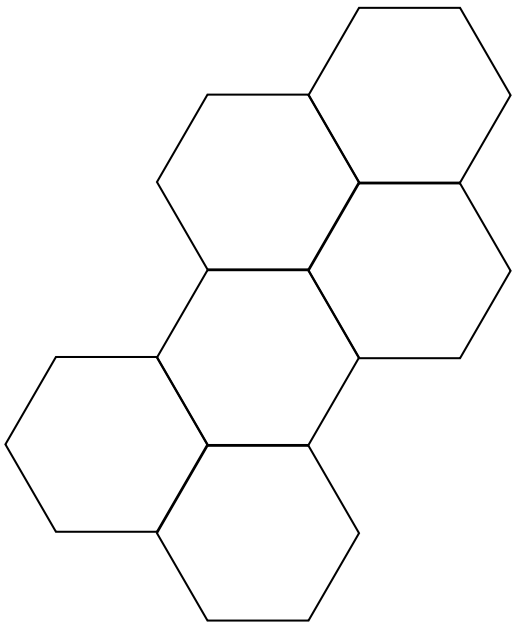

Whatever the modifications are on your property, (interior or exterior) we can provide the necessary construction documents to get you your building permit.

As an additional service, we can get in contact with your municipality and apply for the building permit ourselves.

Construction documents produced by AH Design Studio always adhere to regional building and fire codes, municipal codes, and any other jurisdictional statutes, regulations and guidelines.

INCLUDED IN THIS PACKAGE

- On-site measurements
 - Building code and bylaw research
 - Proposed site plan
 - Architecture drawings as required by the city
 - Application process
-
